

LAW LABEL LOOKUP GUIDE

What is the Law Label Lookup?

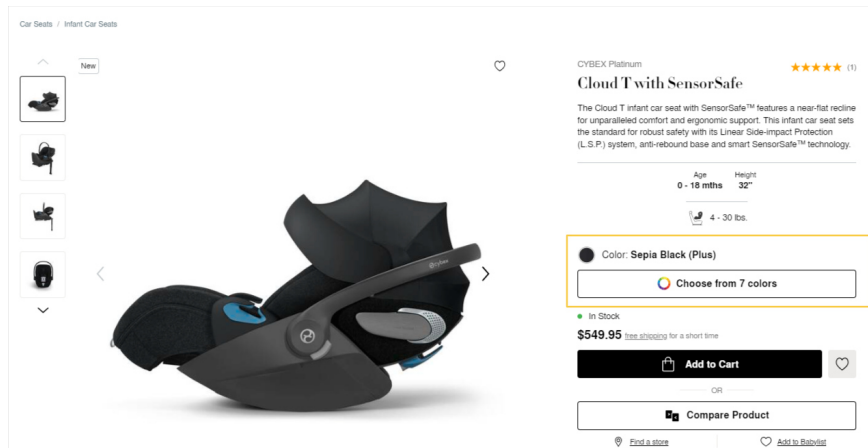

The law label lookup allows you to search for information about the labels on products. These labels provide important details about the product, including its materials and compliance with safety standards. It helps ensure that products meet regulations like Utah's Online Sales Requirements (R70-101-13), which mandate that all online sellers clearly provide certain product and label details, ensuring transparency and safety for consumers.

This guide will explain what the law label lookup is and how to use it effectively.

How to Use the Law Label Lookup:

1. How to Find Your Product ID/Catalog Number:

- **Locate the Product ID/Catalog Number on the Product:**
The Product ID is printed directly on the product. Check the label on the car seat, stroller, or accessory (*please see examples on how to locate the Product ID/Catalog Number below*).
- **Find the Product ID on the [CYBEX Online Shop](#):**
 1. Go to our website and navigate to the product you purchased or are looking to purchase.
 2. Select the color of the product you would like to look up.

3. Go to the **Product Details** section and copy the **Product Code**.

Product Details

Product Code: 524000605 (Sepia Black (Plus))

Specifications:

- Age Range: From newborn up to approx. 18 months
- Child Height: max. 32"
- Child Weight: From 4 lbs. up to 30 lbs.
- Complies with new FMVSS213 side impact and frontal impact standard safety standards
- Group: Infant Car Seat

2. Visit the Lookup Page:

Go to the **Law Label Lookup** page:

<https://prod.globalrsinc.com/lawlabellookup/search/ColumbusTradingPartners>

3. Enter the Product ID:

In the search field, enter the product ID you found (either on the product or from the online shop), and click "Search."

To review the law label(s) for a product, please enter your Article Number below. Multiple IDs can be searched at one time.

Please enter your Article Number(s) below:

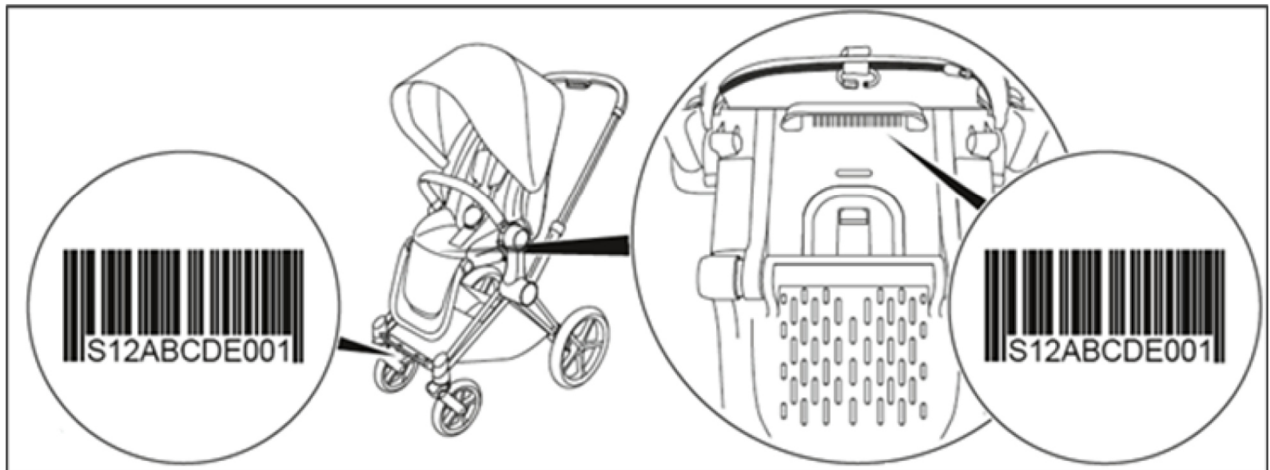

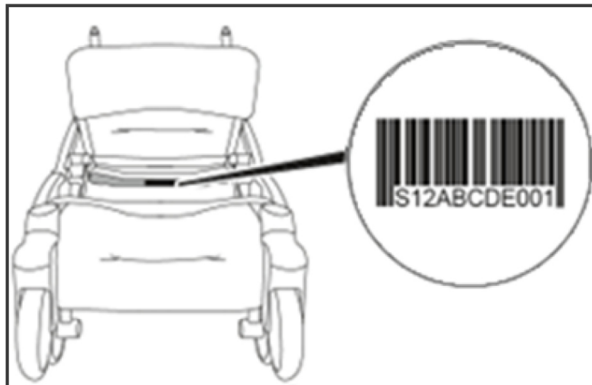

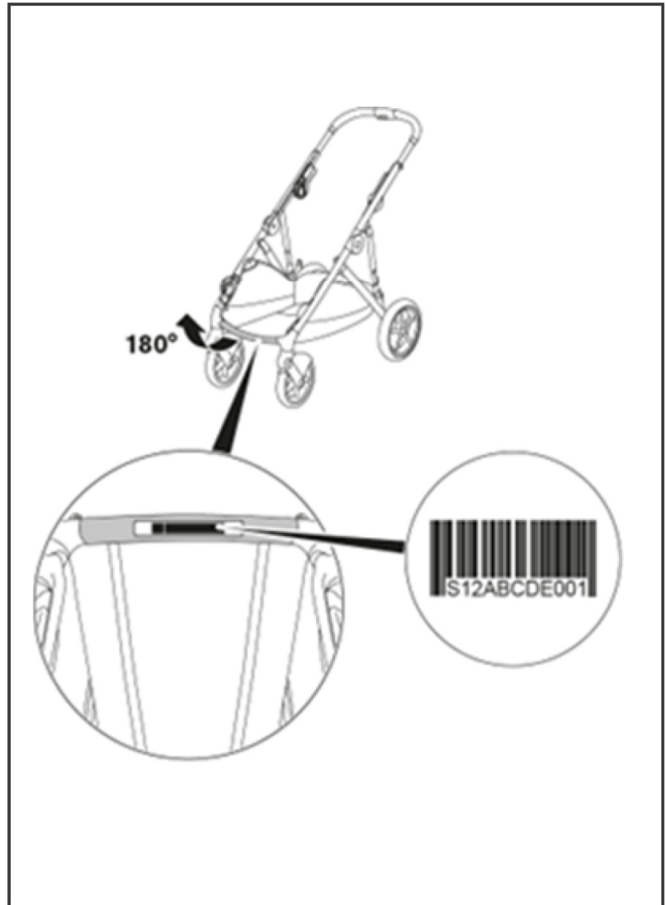

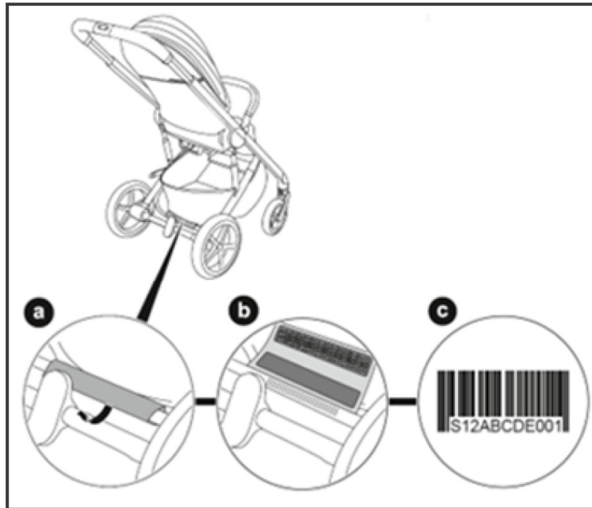

4. View the Results:

The lookup tool will display detailed information about the product's label, including materials and compliance with safety standards such as Utah's Online Sales Requirements (R70-101-13).

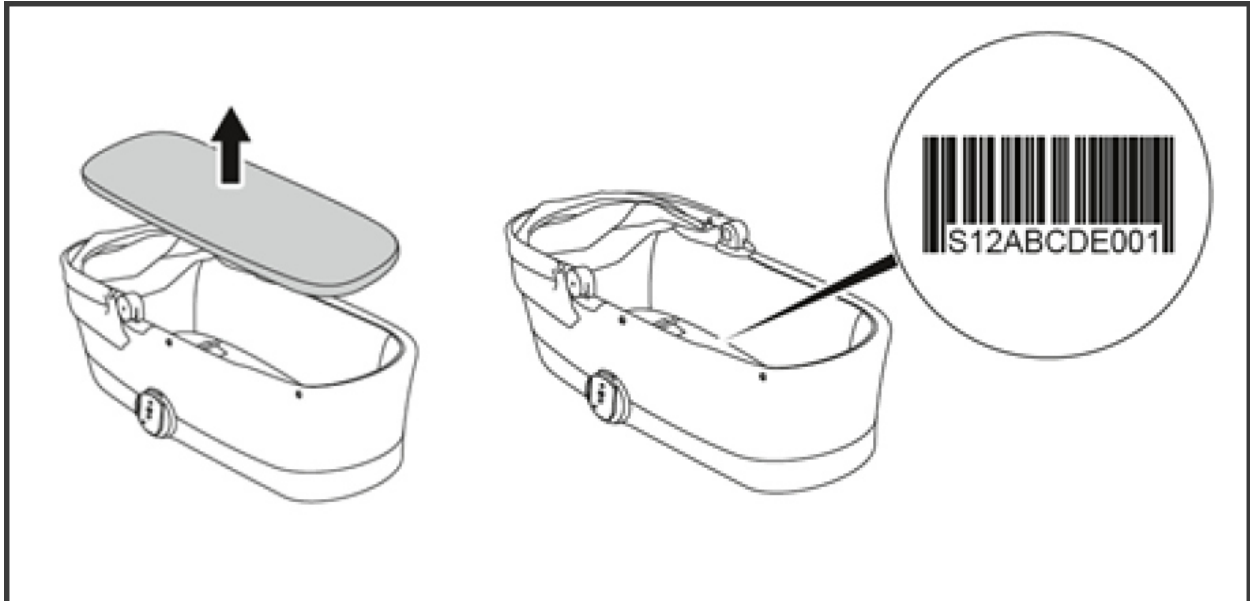

By following these steps, you can quickly and easily verify the product's labeling information, ensuring it meets all safety and legal requirements, including state-specific regulations like those in Utah.
